WELCOME

Welcome to central Pennsylvania's premier wine event, the 19th Annual Gettysburg Wine & Music Festival.

This festival is your chance to traverse seven acres rather than hundreds of miles to taste some of the best wines and spirits from every corner of the state -- all at one fun, festive and relaxed event.

Your enjoyment of our festival supports local businesses and communities. Absolutely 100% of festival proceeds benefit community organizations, as well as programs offered to businesses by The Chamber of Gettysburg & Adams County. Your support of local restaurants, accommodations and retail shops boost our local economy, while your purchases at the festival make a difference in communities across the state.

SIP. SAVOR. REPEAT.

Cheers!

Carrie S. Stuart

Wine Check & Pick Up

To enhance your experience, we offer a Wine Check service through 5 p.m. Saturday and 4 p.m. on Sunday. No need to lug around your purchases all day! Instead check your wine & spirits at the booth you bought them, then pick them up as you leave. Be sure to hold on to your ticket so you don't leave any bottles behind. Just in case though, include your phone number on the wine check ticket so we can get in touch with you if we need to.

PA WINE AND DISTILLERY FACTS

Pennsylvania has over 14,000 acres of some of the most fertile grape-growing land on the East Coast.

Pennsylvania is the birthplace of American Whiskey.

The vast majority of Pennsylvanian craft distilleries follow the “grain to glass” principle – meaning they only use locally or regionally sourced ingredients in their products.

With nearly 300 licensed wineries, Pennsylvania produces more than two million gallons of wine annually.

Wineries across the state have an eye on sustainability and have adopted geo-thermal and other conservational farming practices.

The official wine tasting procedure is to pour the wine into a clean, clear glass. Hold the glass and view it against a white background or bright light and observe the color and clarity of the wine. In order to let the wine “breathe,” swirl the glass for a few seconds. This will bring out the aromas of the wine. Sniff then sip your wine, letting it roll around the mouth for a few seconds before swallowing.

Public WiFi

WiFi courtesy of iNet Technology Group, LLC. and Comcast Business is available for attendees.
